The Wellcome Trust

The Wellcome Trust is a charitable foundation that funds and supports a wide range of biomedical research both in the UK and at a global level. The Trust also produces a range of educational tools and resources. The Wellcome Trust 'Big Picture' online magazine special issue on 'The cell' contains a useful overview of human cell biology and an introduction to stem cells. Copies of 'The Cell' are free to download from [here](#).

YourGenome.org

The YourGenome site, produced by the Sanger Centre in Cambridge (UK), is a good source of good source of information on genes, genomes and how they influence health and disease aimed at the non-specialist. The site also includes discussion of the social and ethical aspects of genetic research in humans.
